October Program

Mel Bryan did a presentation on turning a Hollow Globe Christmas ornament with Laminated spots on 4 sides. He started with a 5 in blank with a slab glued to each side. He mounted blank in Scroll chuck backed up with the tailstock.

He passed around a handout with detailed directions. I have included it in e-mail for those of your who did not receive one.

Samples of Mel's work:

Show and Tell

Kent Townsend brought his finished ornament from the last meeting demonstration on a cherry stand. He also presented a Spalted Hackberry Bowl.

Damage Control Plugs

Thanks to everyone who's helped with our plug orders. Our inventory is getting low so we will be asking for help getting restocked. There will be boxes of blanks at the next meeting. Please consider taking a box home and turning them by the following meeting.

Here's a table with the plug dimensions for reference. It's also on the [Club News](http://www.northlandwoodturners-kc.com/Plus%20Size%20and%20Cut%20List.mht) tab of the club website at <http://www.northlandwoodturners-kc.com/Plus%20Size%20and%20Cut%20List.mht>

Basically, the plugs are all truncated cones with the large diameter on one end connected to the small diameter on the other end with a straight taper.
